

Paper Presentations

Econ 722

April 16, 2015

In this assignment each of you will be asked to read *two* recent working papers carefully, and prepare material based on your reading to share with the rest of the class. To find out which papers you've been assigned to read, see Table 1. For the first paper you've been assigned, you will give a 15 minute in-class presentation with slides: either on April 23rd or 28th, as listed below. For the second paper, you'll prepare a short (2–3 page) handout summarizing the main findings of the paper. Feel free to include one or two figures or tables in the handouts. Your handout is due at *noon* on the day *before* that paper is scheduled to be presented in class. This will give everyone enough time to read the handouts before class. If you have any questions, send either of the two Franks an email and we'll be happy to help.
